PROPERTY DESCRIPTION

If you are looking for your place in the country, then this pristine, four bedroom home is for you. Situated on a private 5 acre lot, this property would be the perfect place for horses or other animals. You will love summer evening cookouts on the large deck and pavestone barbecue area. The front landscaping and concrete side walk are also an added bonus.

Inside, you will fall in love with home's bright open floor plan. When you pass through the foyer, you will see a large family room with ample natural light and cathedral ceilings. There is also a breakfast area open to both the family room and the kitchen. The kitchen is better than new and features a full complement of appliances, an island, and more cabinet storage than you can imagine. There is also a generously sized formal living room that adjoins the kitchen that can serve as a formal dining room.

The master bedroom is large enough to accommodate a king size bedroom suit with plenty of room to spare. The luxurious master bath has a garden tub, double vanities, and a large shower. There is also a huge walk-in closet adjoining the master bath. With over 2,300 square feet of living space and 4 bedrooms, there is more than enough room for the whole family. Inside and out, this is truly a lot of home and land for the money. This home is just another example of the great homes Cincinnati MLS has to offer.
